

The AFLUA is pleased to announce a new partner for members and life members.

The AFLUA has joined with SOS Hydration to provide members and life members access to a 30% discount on SOS Hydration products.

SOS is a fast acting electrolyte replacement drink created to prevent and combat mild to moderate dehydration due to active lifestyles and physical performance. SOS uses the World Health Organisation's Oral Rehydration Therapy recommendations and data from the American College of Sports Medicine.

Further information on SOS Hydration is included in the following attachments:
